

Dovetail: Timber with Purpose

At Dovetail, everything we build is made with purpose. We create quality timber products and furniture for consumers and businesses by providing high volume manufacturing services.

As a social enterprise, our products are created by people of all abilities with a passion for manufacturing, opening the doors of opportunity and benefiting the community.

Dovetail assists customers to grow their business by using its extensive labour force and mass production equipment to manufacture large scale cutting work, allowing them to work on their business, not in it. Capabilities include:

Cutting high quantity melamine board

Flat-packed and ready-to-assemble (RTA) furniture

Flat-packed indoor & outdoor kitchen cabinetry

Joinery including kitchen, wardrobe & storage solutions

Medium/high density residential & commercial fitouts

Supply components for accommodation fitouts

Timber processing including crates, pallets, kindling, decking, fencing

Dovetail supports the manufacture of timber products at high volume and high quality, while scaling social impact, and boosts business supply chain by assisting with cutting and assembly.

Our team produces ISO-accredited ready-to-assemble (RTA) furniture and commercial joinery. Products include wardrobes, bedside tables and other storage solutions, indoor and outdoor kitchens, picket fencing, floorboards, kindling, pallets, crates and decking.

Through a partnership with XFrame, Dovetail also manufactures lightweight timber wall, floor and roof framing systems for retail and commercial customers. Built for sustainability, its unique, modular design is made to adapt and be repurposed to new needs over time, without creating waste.

For more information, ask for our XFrame flyer or go to the XFrame website at xframe.com.au

Quality Assured

Australian made, operating in accordance with ISO9001 and ISO45001.

Social Impact

Dovetail is a social enterprise backed by the Bedford Group, which has provided jobs to the disability community since 1945. Dovetail employs people of all abilities, removing barriers to employment and supporting people with disability to reach their life goals through expanded career opportunities and an opportunity to earn an award wage.

Care for the Environment

We invest in lean, more environmentally sustainable practices and actively seek opportunities for circular production, where waste product is repurposed. Whether it's a big or small project, our high-quality products and services aren't just good for people, they are good for life.

Coming in 2025

Our 19,900sqm state-of-the-art advanced manufacturing hub in Salisbury, South Australia is under construction. The new site will foster innovation, promoting advanced, lean manufacturing practices and integrating social responsibility into its operations.
